Harmonic Software Introduces O-Matrix® Developers Version

Harmonic announces the release of O-Matrix Developers Version, with the ability to create royalty-free distributions

SEATTLE, WA - June 22, 2000 - Harmonic Software Inc., a provider of scientific, engineering, and technical computing software, today announced that *O-Matrix Developers Version* is now available. This release introduces the capability to create binary O-Matrix applications which can be distributed royalty-free. Using the advanced analysis, GUI building, and MATLAB®-compatibility capabilities in O-Matrix, application developers can now build stand-alone technical computing solutions that can be distributed without requiring end users to pay for individual licenses.

Harmonic Software provides high-quality, well-supported technical data analysis and visualization solutions at a reasonable price. The O-Matrix Developers Version requires Windows95/98, NT, or 2000, 16 MB RAM, and 15 MB free disk space. It is priced at \$1900. Academic discounts and site licensing arrangements are available. Further information can be obtained by telephoning Harmonic Software at (206) 367-8742, by writing the company at P.O. Box 31537 Seattle, WA 98103, by e-mail at harmonic@omatrix.com, by fax at (206) 706-7493, or on our home page at <http://www.omatrix.com/omdeveloper.htm>

Since 1992 O-Matrix has been providing high-performance data analysis and visualization solutions. Now, with a broad range of users from fields in signal processing to econometrics, O-Matrix has become the choice for technical computing professionals requiring high-performance data analysis and visualization capabilities.

O-Matrix is a registered trademark of Harmonic Software Inc. All other brand or product names are trademarks of their respective owners.

Editors: Review copies of O-Matrix Developers Version are available upon request.
